New Claims

Applicant has added new claims 53-76.

Applicant's new independent claim 53 includes, inter alia a device with an interaction chamber and an imager "wherein said interaction chamber and said imager are positioned behind an optical window". Neither Lemelson nor Colvin nor the other prior art of record teach, alone or in combination, an interaction chamber and an imager "positioned behind an optical window". Applicant therefore asserts that new independent claim 53 is neither anticipated nor made obvious by the prior art of record and is therefore allowable over the cited prior art of record. New dependent claims 54-68, depend directly or indirectly from independent claim 53, include the limitations of claim 53, and are neither anticipated nor made obvious by the prior art of record. Dependent claims 54-68 are therefore allowable.

Applicant's new independent claim 69 includes, inter alia an interaction chamber and an imager "wherein said interaction chamber and said imager are behind an optical window". The prior art of record does not teach an interaction chamber and an imager "wherein said interaction chamber and said imager are behind an optical window". Applicant therefore asserts that new independent claim 69 is neither anticipated nor made obvious by the prior art of record and is therefore allowable. New dependent claims 70 and 71, depend directly from independent claim 69, include the limitations of allowable claim 69, and are neither anticipated nor made obvious by the prior art of record. Applicant therefore asserts that dependent claims 70 and 71 are allowable.

Applicant's new independent claim 72 includes, inter alia an "interaction chamber being contained within a housing and behind the optical window" which is not taught in the prior art of record. Applicant asserts that new independent claim 72 is neither anticipated nor made obvious by the prior art of record and is therefore considered allowable over the cited prior art of record. New dependent claims 73-76, depend directly from independent claim 72, include the limitations of claim 72, and are neither anticipated nor made obvious by the prior art of record. Applicant therefore asserts that dependent claims 73-76 are allowable.

In view of the foregoing amendments and remarks, the new claims are deemed to be allowable. Their favorable reconsideration and allowance is respectfully requested.
